

SAMUEL ADEKANMBI

M.Sc., B.Sc.

Experienced software architect, webmaster and certified database administrator.

“Samuel is a self-motivated young man, with proven leadership skills and altruistic mindset. He is also enamored with an uncanny sense of responsibility, which makes him take ownership of process for results and collective objectives.”

Mr. Oladoyin Anjorin

Managing Partner,
AppRangers Nig. Ltd., Lagos

“Samuel Adekanmbi is a dynamic young man with passion for excellence. He exudes maturity, commitment and works well in a team. His leadership quality is as warming as his loyalty to leadership.”

Mr. Olajide Bello

Chief Operating Officer,
Cribpark Systems Ltd., Lagos.

PROFILE SUMMARY

A software architect and certified database expert who strive for excellence at all times, while exemplifying value-based leadership, team work and continuous improvement in pursuit of national development.

I'm passionate about technology, health, globalization and open data thereby making me pursue a master's degree in Database management.

ACHIEVEMENTS WITH APPRANGERS LTD.

- Successfully led the team that deployed the QR Code for the highest grossing Nigerian film. The QR codes were placed on tickets and around different cinemas. It linked to the video trailer of the movie which had over 1,000,000 views on YouTube.
- Successfully led the team that developed a 360 degree feedback assessment software for a leading telecommunication firm; the results generated were used by the client to make administrative decision relating to pay and promotion.
- Coordinated numerous lunchtime events with programming/supplier vendors, resulting in increased product knowledge for programmers and UX developers, as well as training department staff.
- Coordinated the development of a mobile medical resource to be used by thousands of healthcare professionals for clinical information.
- Managed the team that developed a loyalty rewards mobile app for a leading Oil company which was deployed on Microsoft Azure to encourage repeat business.
- Developed strategies that were used in implementation of Human resource software and hardware systems in the organization
- Conducted requirements analysis testing and prepared proposals for replacement systems and cost analysis reports.
- Manager of archive solutions responsible for formulating a strategy to increase the profitability and systems performance of the transactions archive purchased in 2015.
- Examine current systems, make recommendations for client system improvements, contribute to specifications for new systems, implement and monitor their effectiveness

SAMUEL ADEKANMBI

M.Sc., B.Sc.

*Microsoft Cloud Ambassador
for the Microsoft Azure
Platform*

"Samuel proved himself to be a dependable consultant and a hard worker with solid problem solving and technical skills. I was always impressed by his ability to complete projects assigned to him on time."

Mrs. Ayobami Odekunle

Chief Executive Officer,
ArewaPlus Enterprise, Lagos

"Samuel would be an asset to have on any team. To say he's a team leader would be an understatement. During his tenure with us, he often goes out of his way to resolve any technical issue that our staff might have."

Mr. Elijah Imeh

I.T. Manager,
Onward Paper Mill Ltd., Lagos.

- Was assigned to a Micro Finance Bank cheque archive project; my role was to provide a technology overview of the entire project and to coordinate the solutions developed by the India project teams, ensuring that all of the elements fitted together into a seamless solution.
- Saved my employer millions of naira in recurrent expenditure by getting a reliable vendor for the purchase and installation of some of our servers.
- Part of the team that managed and developed content for the Twitter platform of Nigeria's National Conference 2014, publishing 15,531 tweets and recording 140,698,161 impressions.
- Deployed an SMTP server for a leading ecommerce company so as to send email through a secured mail relay service so that when the reply to address and the real address are different, the messages won't be detected as spam or spoofed email messages.
- Deployed a scrapping web application for an ecommerce company to extract reviews from their competition websites so as to help them understanding customer sentiment and feedback.

SELECTED ACHIEVEMENTS AS AN INDEPENDENT CONSULTANT

- Currently working on a chatbot for drug verification to combat the global counterfeit drug trade which is thriving in Africa. The chat bot is currently running on the Facebook messenger with Telegram, Slack and Skype platforms undergoing finishing touches. The data generated from the bot usage will be made available to the public and government and will help track manufacturers and stores that sell fake and expired drugs in the marketplace.
- I worked with the Facebook and Testthaton team to understand how Africans consume content on the Facebook platform and making the mobile app data free and adaptable to the local audience.
- Selected as one of the five Africans by Microsoft to get hands-on experience on disruptive technologies like IoT, Blockchain and Artificial Intelligence in Mauritius and South Africa.
- Helped with the integration of an SMS API for a bulk SMS website. Installation of SSL Certificate was also done on the web server to secure and encrypt the entire website.
